5. Transaction Commission Policy

5.1 **Vero360** charges a **Commission** on completed transactions processed through the **Platform**. **Commission** is set by **Vero360** by **Price** band, as shown in the **Commission Schedule** in Clause 5.2.4, based on operational costs, market conditions, and service complexity, and is disclosed to merchants and providers during onboarding and ahead of any change. No commission is charged during registration, listing creation, or account setup.

5.2 How Commission Is Calculated

5.2.1 **Commission** is added on top of the **Price** set by the merchant or provider in the app. It is not deducted from that **Price**, and **Vero360** does not take any portion of the amount the merchant chooses to charge for their goods or services.

5.2.2 Worked example: where a merchant sets a **Price** of **MWK 5,000**, the applicable **Commission** under the **Commission Schedule** is **MWK 500**, and the customer is charged **MWK 5,500** at checkout (**MWK 5,000** plus **MWK 500** commission). The merchant receives the full **MWK 5,000** they set; **Vero360** receives only the **MWK 500** commission collected on top.

5.2.3 Where a merchant subsequently agrees a different or discounted price directly with a customer outside the **Price** set on the **Platform**, the commission remains calculated on the **Price** the merchant set in the app, and not on any privately negotiated amount. The commission obligation is not reduced or waived by such negotiation.

Area 14, Lilongwe, Malawi
0888 367 037 / +265 887 261 094
info@vero360.app
www.vero360.app

5.2.4 **Commission Schedule**. **Commission** is determined by the **Price** band in which the merchant-entered **Price** falls. The amount added across each band is as follows:

Merchant Price (set in the app)	Amount Added (Commission)
MWK 100 – 5,000	MWK 10 – 500
MWK 5,001 – 10,000	about MWK 450 – 900
MWK 10,001 – 20,000	about MWK 800 – 1,600
MWK 20,001 – 50,000	about MWK 1,400 – 3,500
MWK 50,001 – 100,000	about MWK 3,000 – 6,000
MWK 100,001 – 500,000	about MWK 5,000 – 25,000
MWK 500,001 – 2,000,000	about MWK 20,000 – 80,000
MWK 2,000,001 – 10,000,000	about MWK 66,000 – 330,000
MWK 10,000,001 – 20,000,000	about MWK 300,000 – 600,000
MWK 20,000,001 and above	from about MWK 500,000

Commission is added to the customer total and is never deducted from the merchant's price. Amounts are shown as ranges across each price band. Commission at band starts is rounded to the nearest whole kwacha. Commission applies to the merchant-entered price; payment processing and payout arrangements are separate.

> **Example:** Merchant price MWK 5,000 + amount added MWK 500. **The customer pays MWK 5,500; the merchant price remains MWK 5,000.**

5.3 Merchant Price-Setting Notice

5.3.1 Before a price is published, the following notice is displayed to the merchant or provider in the app, so that pricing terms are clear and well understood from the outset:

> How **Commission** Works — **Commission** is added on top of the price a merchant sets; it is never subtracted from that price. For example, a price of **MWK 5,000** with a commission of **MWK 500** means the customer pays **MWK 5,500**, while the merchant still receives the full **MWK 5,000**. **Vero360** does not take any part of the price a merchant sets — only the commission added on top of it. If a merchant later agrees a lower price directly with a customer, the commission still applies to the original price set on the **Platform**, not the discounted amount. This keeps pricing clear, fair, and predictable for merchants and customers alike. Thank you for pricing fairly on **Vero360** — happy selling!

5.4 Commission Deduction and Settlement

- **Commission** is calculated on the **Price** set by the merchant or provider, excluding applicable taxes, and is added to and collected as part of the amount charged to the customer at checkout via the **PawaPay** payment gateway.

Area 14, Lilongwe, Malawi
0888 367 037 / +265 887 261 094
info@vero360.app
www.vero360.app

- Upon completion of the transaction and satisfaction of the **Required Procedures**, the full merchant-set **Price** is released to the provider's **Wallet** for instant withdrawal, as set out in Clause 7. **Vero360** retains only the commission collected separately from the customer, and does not deduct any amount from the **Price** set by the merchant.
- **Commission** amounts and the **Commission Schedule** are reviewed periodically, and merchants and providers are notified at least **30 days** in advance of any change.
- New verified providers receive zero commission on their first 30 transactions as an introductory offer.
- Any system error resulting in an incorrect commission charge will be identified and refunded within **48 hours**.

5.5 Commission on Cancelled or Refunded Orders

5.5.1 Where a customer or a merchant cancels an order, or a refund is otherwise issued, after commission has been charged on that transaction, the commission is retained by **Vero360** as earned and is non-refundable. Only the merchant's **Price** portion is refunded to the customer, where applicable.

5.5.2 Where no commission has yet been charged on a transaction, for example where an order is cancelled before it is confirmed, no commission is payable, since none has accrued.

6. Payment Methods & Processing

6.1 Accepted Payment Methods

6.1.1 All payments on the **Platform** are processed through the **PawaPay** payment gateway, in compliance with the National Payment Systems Act 2016 and **RBM** Mobile Money Guidelines. Accepted payment methods are:

Method	Provider	Availability
Airtel Money	Airtel Malawi	All platform services — launch
TNM Mpamba	Telekom Networks Malawi	All platform services — launch
Cash on Delivery	Selected services only	Vero Ride, Vero Bike — launch
Bank Transfer	All licensed Malawian banks	Year 2 — post-launch

6.2 PawaPay Gateway Fee

6.2.1 A payment processing fee is charged by **PawaPay** on each transaction. This fee is separate from **Vero360**'s commission and is disclosed to merchants and providers during onboarding. **Vero360** will seek to renegotiate favourable gateway rates over time, in line with **RBM** guidance on promoting affordable digital payments.

7. Payment Release, Wallet Access & Courier Order Protection

7.1 Payment release and **Wallet** access. The **Customer**'s full payment, comprising the merchant's **Price** plus **Commission**, is collected at checkout through **PawaPay**. Funds are released once the transaction is complete and all **Required Procedures** have been met. Released funds are credited to the provider's **Wallet** and are available for **instant withdrawal**, subject to the operational availability of the relevant mobile money network.

7.2 No standard waiting period. There is no standard 7-day waiting period. The **Confirmation Window** applies only to marketplace orders delivered by courier, as set out in Clauses 7.3 to 7.5.

info@vero360.app
www.vero360.app

7.3 Courier-delivered marketplace orders. For marketplace orders delivered by courier, the **Customer** is to confirm receipt in the App after receiving and checking the item. The **Customer** has **7 days after delivery** to confirm receipt or report an issue. The **Customer** need not wait for the **Confirmation Window** to end and is encouraged to confirm as soon as the item has been received and checked.

- **Receipt confirmed:** once all **Required Procedures** are met, funds are released to the provider's **Wallet** and become available for instant withdrawal.
- **Issue reported:** funds may remain on hold while the dispute is reviewed under Clause 14.

7.4 Automatic release for courier orders. If the **Customer** neither confirms receipt nor raises a dispute within the **Confirmation Window**, the order is treated as accepted and the funds are automatically released once all other **Required Procedures** have been met.

7.5 End of payment hold. **Vero360**'s payment hold protection ends once funds are released. This does not affect the rights of any **Customer** under applicable law, including the Consumer Protection Act 2003.

7.6 The release process for courier-delivered marketplace orders is summarised below:

Step	Action	Timeline
1	Customer pays the merchant's price plus commission via PawaPay — funds held in escrow	Immediate
2	Provider receives order notification and confirms fulfilment; the item is handed to the courier	Within SLA
3	Item delivered by courier — Customer receives and checks the item, then confirms receipt in the app	On delivery
4	Receipt confirmed and Required Procedures met — the merchant's price is released to the provider's Wallet for instant withdrawal; Vero360 retains the commission collected from the Customer	On confirmation
5	If the Customer does not confirm receipt and no claim has been raised, funds are automatically released once all other Required Procedures are met	7 days after delivery
6	If the Customer reports an issue within the Confirmation Window, funds may remain on hold and a refund review is triggered instead of automatic release	Any time within 7 days of delivery
7	Claim reviewed — funds released to the provider or refunded to the Customer based on the outcome	Within 5 days of the claim

7.7 Other services. For rides, food delivery, courier services, accommodation, service bookings, and marketplace orders not delivered by courier, funds are released once the service or transaction is complete and all **Required Procedures** have been met, as shown in the app at the time of the transaction. No **Confirmation Window** applies.
